

# Casio fx-300ES PLUS Instructions

- 1 To toggle between displaying fractions like this ' $\frac{1}{7}$ ' or like this '0.1428571429' hit the blue **S** ↔ **D** button above the yellow **DEL** button.
- 2 To toggle between degrees and radians press **SHIFT** and then the **SETUP** buttons. You should get a menu. Select '3' for degrees or '4' for radians.
- 3 To select **MATHIO** mode (' $1 \div 7 = \frac{1}{7}$ '), hit **SHIFT**, then **MODE**, then select '1' on the first menu that appears and select '1' again on the second menu.
- 4 To select **LineO** mode (' $1 \div 7 = 0.1428571429$ '), hit **SHIFT**, then **MODE**, then select '2' on the first menu that appears.
