Overview of today’s work

I. General Information

A. Instructor – Dr. Samuel A. Abrash
   1. Office: Gottwald, Room W-205
   3. e-mail: sabrash@richmond.edu
   4: Office hours: I get to the University by 9:30 A.M. and I’m here every
day until 6:00 P.M. You’re free to drop into my office any time I’m not in
class. If I’m occupied when you drop by and can’t see you immediately,
I’ll make an appointment to see you, usually later the same day.

II. Lecture
   A. Go over syllabus and schedule.
   B. Discuss safety and show safety equipment

III. Lab work – check in, Ap-2 – check your lab drawer; have us replace materials
missing; fill out form and give to Dr. Abrash. Fill in student information sheet, Ap-1 and
give to Dr. Abrash.

IV. Excel exercise – we’ll go to the Boatwright Computer Classroom. I'll explain the
details when we get there.

V. Assignments for next time
   A. Buy safety glasses or goggles if needed: I will give side shields to people
      having acceptable glasses.
   B. Buy 50 page lab notebook
   C. Study for safety quiz.
   D. Read over syllabus material in lab manual
   E. Read titration experiment write-up in lab manual
   F. Do prelab for titration experiment
   G. Go to Boatwright Library and find the Science Information Center on Level B-2;
do the first reading and write it up using the form given on page Ap-5
   H. Excel exercise – you will probably complete it today. Just hand it in next time.
