IALLT

The International Association
for Language Learning
Technology

Where technology
speaks your language!

What is IALLT?

IALLT is the International Association for Language Learning Technology. IALLT brings together

- teachers
- media center directors
- curriculum developers
- technology administrators
- education administrators

interested in the effective use of technology for the teaching and learning of language, literature, and culture.

Activities and Services

IALLT's strong sense of community promotes the sharing of expertise across all levels of instruction. IALLT members meet face-to-face every two years at the IALLT biennial conference. They also gather at the conferences of affiliated organizations like CALICO, ACTFL, and TESOL.

Online communication is vital to IALLT's members. The LLTI listserv, co-sponsored by IALLT, is a lively forum for information exchange. IALLT also hosts a members-only wiki.

IALLT addresses concerns about copyright and the digital distribution of multimedia through the IALLT web's Copyright Information Page and the efforts of its Digital Exchange Committee to bring together IALLT members, content creators, and publishers to discuss issues of common interest.

IALLT's Consulting Services link experienced technology users with those in need of assistance.

Publications

The *IALLT Journal of Language Learning Technologies* is entering an exciting new era, reflecting technology's evolution by moving from analog to digital. Members' commentaries and experiences will supplement peer-reviewed online articles. IALLT membership includes access to both the new digital *Journal* and back issues of the print version.

IALLT regularly updates its popular and practical publications:

- the *Language Center Design Kit*,
- *Digital Language Lab Solutions*,
- the *IALLT Management Manual*.

Regional Groups

IALLT regional groups offer additional ways to network with colleagues on a regular basis. Regional group meetings typically take place on weekends; their size facilitates interaction and discussion.
